

Technical Specifications | ID-Badge TtS

IPCS by 9Solutions

9S-TAG-01-04-01

ID-Badge TtS is designed to be used with assets equipped with Touch to Sign Asset Tags.

With the Touch to Sign Tag users can sign assets and move them where needed without alarms being created. When unauthorized people move valuable assets without a permission alarms are created instantly.

ID-Badge TtS has the same features as standard ID-Badge with real time locationing and alarm functions. The extra functions include programmable buttons for which specific actions can be defined.

ID-Badge TtS

Personnel Safety and Availability

Features
