IPCS by 9Solutions

9S-NOD-01-05-01

**Outdoor Node offers the same special features as Universal Node, but it is especially designed for inclement environments. Node meets IP67 requirements.**

IPCS creates an own system without the need to integrate, load or compromise the existing network. Self- healing as well as functionality during power cuts are features required by a robust network and which are met with the 9Solutions IPCS system. In case of failing node the network will heal and inform the IT personnel for further actions.
